

I found K-Love on the radio in San Antonio, TX when my grandson was born prematurely 5 years ago. It was nearly 2 years before I finally found it here. I now listen to K-Love on 94.9 every day. I find it to be character-building, uplifting music that always brightens my day. This station helps our community by providing announcements of many non-profit and church-related activities. They are the only Christian music station in this area that plays a wide variety of current Christian music that relates to many ages. From teens to 50-somethings listen to the station in my car and we all love its upbeat, encouraging sound. We are also encouraged by the many testimonies that can be heard. It truly is a one-of-a-kind station in our area and we would be devastated if it were lost. Please don't let this happen.
